8. Brief project/activity description:	Care provided to elderly and disabled in their own home.
9. How will this project help clients, build community, and form new partnerships? What aspects of the project would you like to share with the public:	<p>The In-Home Care program provides personal care to the elderly and disabled to remain in their own homes. This service spares the community from paying some expensive fees for care in a group home or nursing home.</p> <p>CCAP currently has an elderly in-home care client who was not expected to live much longer at all. She was released from a nursing home where she was being cared for so that she could spend her remaining days in her own home, as she wished. That was in August 2008. The anticipation of having the care providers come and the daily interaction with them has made a real difference in her health and in her quality of life.</p>
